

WeldRo®Trademark No : 93/07862
The Symbol Of Quality

DRYING OVEN (BENCH TYPE)

- * **DIGITAL CONTROL**
- * **STACKABLE**

Specification :-

Model	KE150-SS
Stock Code	K402/207
Capacity	150 kgs 457 mm electrodes
Temperature (Averaged Stabilized)	Adjustable 122°F to 842°F (50°C to 450°C)
Voltage	240 / 420 AC
Eletrode Size	254, 305, 356, 457 mm
Heating Elements (3)	2100 watts total
Insulation	50 mm Rock Fiber
Inside Diameter	460 x 500 mm deep
Shelved Compartments	6
Outside Diameter	720 x 680 x 655 mm
Nett Weight	95 kgs
Shipping Weight	99 kgs
Dimensions	780 x 700 x 690 mm

KE150-SS is a highly reliable holding, rebaking and reconditioning Electrode Oven of Stainless Steel inner casing and outer epoxy coated casing, durable against corrosion. Sturdily constructed for maximum performance and convenience for good quality welding.

KE150-SS Electrode Oven is a specially designed High Temperature Oven which is more Energy Efficient while maintaining heat required to recondition electrodes, eliminating moisture which is crucial for quality welds.

- * **Temperature settings are digital controlled for easy to read and higher accuracy**
- * **Stackable for space constraint workshops**
- * **Energy Efficient Insulation**
